1. What is the minimum amount of funding you could utilize to complete your proposed project or program?

The minimum amount of funding that can ensure that housing services for Davis residents is provided at the same level that we currently provide is $10,000. Funding for housing support services has continued to dwindle over the past five years and YCCC has experienced more difficulty every year to find the money for these desperately needed services. YCCC requested $15,000 because this is the amount needed to keep all housing services in place. Funding at the $10,000 level means that we will have to back fill with donations and fundraising to make up the difference. This takes resources away from other programs in the agency.

2. What type of FTE are you asking support for? Social worker, psychologist? etc.

The FTE support that YCCC needs for this project is a highly skilled mental health specialist with over 16 years of experience providing services to individuals with serious mental illness. Our Housing Support Specialist also has over 14 years of Supported Housing experience and assists residents with keeping up with the rigorous and ever changing requirements of the Federal HUD program.
